

Do you like baking? Do you need some maths resources? These simple step by step instructions are the perfect way to create your own at home, with your children – and have a delicious snack!

Ingredients: 200g unsalted, softened butter; 200g caster sugar; Smarties;  
400g plain flour; 1 egg.

Method:

1. Pre-heat the oven to 200C / 180C fan / gas 6 and line a baking tray with greaseproof paper.
2. Put the butter and sugar in a bowl and beat it until soft and creamy.
3. Add in the egg and mix.
4. Add in the flour a bit at a time to make the dough. You may need to use your hands instead of a spoon at this point!
5. Create a Numicon template using paper. Count your Smarties out into colour groups.
6. Roll out the dough and use your template to cut out your Numicon piece. Add the correct number of Smarties and place on the baking tray. Re-roll the off-cuts and repeat!
7. Place the baking tray into the oven for 10-15 minutes.
